

Sourabh Bhoyar

DevOps Engineer

+91-8275740681 | sourabhbhoyar85@gmail.com | linkedin.com/in/sourabh-bhoyar

Pune, Maharashtra, India

Professional Summary

DevOps Engineer with 2.6+ years of experience building and operating production-grade cloud platforms on Azure and AWS. Strong focus on Kubernetes, CI/CD platform engineering, and Infrastructure as Code. Led cost optimization initiatives that reduced cloud spend by 25%, built self-service deployment pipelines for 10+ microservices, and improved system reliability to a 99.9% SLA through SRE-driven monitoring and performance testing.

Technical Skills

Cloud Platforms: Microsoft Azure, AWS

CI/CD & Automation: Azure DevOps, GitHub Actions, Jenkins, YAML Pipelines, Git, GitHub, GitLab

Containers & Orchestration: Docker, Kubernetes, Helm, Container Registry, Docker Compose

Infrastructure as Code: Terraform, Azure Resource Manager, Bicep

Monitoring & Observability: Prometheus, Grafana, Azure Monitor, Application Insights, Log Analytics, OpenTelemetry

Databases: PostgreSQL, OrientDB

Scripting & Programming: Bash, PowerShell, Python, YAML, JSON

Security & Compliance: RBAC, Azure Key Vault, IAM, Network Security Groups, Security Best Practices

Operating Systems: Linux (Ubuntu), Windows Server

Tools & Methodologies: K6, Agile/Scrum, SRE Practices, Cost Optimization, Load Testing, Azure AI Foundry

Professional Experience

DevOps Engineer – Consulting & Training

Oct 2025 – Present

CareerByteCode

Remote

- Delivered hands-on Azure and DevOps training through live sessions and real-world projects, helping professionals build practical skills in CI/CD automation, Kubernetes, Terraform, and Docker.
- Designed and guided project-based learning initiatives, including end-to-end CI/CD pipeline automation, Terraform-based IaC modules, and Kubernetes microservices deployments with monitoring using Helm, Prometheus, and Grafana.
- Provided one-on-one mentorship and technical guidance, supporting learners in troubleshooting real DevOps scenarios and successfully transitioning into DevOps and cloud engineering roles.
- Built and maintained a DevOps-focused GitHub repository and learning community, sharing reusable automation scripts, templates

Software Engineer – DevOps

January 2023 – June 2025

Raykor Technologies Pvt. Ltd.

Pune, India

- **Built and maintained 10+ Azure DevOps CI/CD pipelines**, reducing deployment time by 40% and significantly increasing release frequency for high-velocity development teams.
- **Containerized and orchestrated 15+ microservices** using Docker and deployed to AKS with Helm charts, achieving improved scalability, deployment consistency, and zero-downtime releases.
- Automated infrastructure provisioning with Terraform and ARM Templates, **reducing environment setup time by 40%** and enforcing Infrastructure as Code best practices across all Azure resources.

- **Achieved 25% cloud cost reduction** through strategic optimization including VM right-sizing, auto-scaling policies, and elimination of idle resources across all environments.
- Implemented comprehensive monitoring stack with Prometheus, Grafana, Azure Monitor, and Application Insights, enabling proactive detection and **resolution of 95% of production issue** before user impact.
- Developed reusable Bash and PowerShell automation scripts that standardized deployment processes and **reduced manual configuration errors by 30%** across dev, QA, and production.
- Designed and deployed scalable performance testing infrastructure using K6 Grafana and Azure VMSS to validate application stability and performance under high-traffic conditions.
- Strengthened security posture by implementing RBAC policies and Azure Key Vault integration for secrets management, safeguarding sensitive data and controlling access.
- Collaborated in Agile sprints with cross-functional teams (Development, QA, Product Owners) to accelerate DevOps adoption, **reduce defect rates, and maintain 99.9%** uptime SLA.

Certifications

Microsoft Certified: Azure Administrator Associate – Credential ID: E3E8596763FB24EE

Microsoft Certified: Azure Fundamentals (AZ-900) – Credential ID: 28778E19718CFA1

AWS Certified Cloud Practitioner (CLF-C02) – Credential ID: 8ab5f6ba8272482f8024639034f75fda

Education

Bachelor of Engineering

Bapurao Deshmukh College of Engineering, Sevagram, Wardha, India
